Job Titles for Chicano/a Studies Majors

Agencies and organizations in the public and private sectors need staff capable of working with individuals of all backgrounds; therefore, a major in Chicana/o Studies greatly enhances an applicant's ability to meet position qualifications. Many students enter the teaching field and/or pursue graduate degrees. The Chicano and other Hispanic historical experiences are used as points of departure toward expanding awareness of the multicultural world and the contributions of Chicanos. All students are encouraged to consider a double major which combines Chicana/o Studies with another academic discipline, such as sociology, psychology or business to ensure their knowledge, skills, and special insights are exceptionally marketable. Below is a list of occupations that many Chicana/o Studies majors pursue. Some of these jobs also require education beyond a bachelor's degree. *For information about these and other careers, please go to www.onetonline.org/.*
