Job Titles for Human Services Majors

The field of Human Services prepares students for careers in the helping professions: assisting individuals, couples and families meet the challenges of living throughout the life cycle. The core curriculum offers courses in the theory and practice of mental health counseling, including applied behavioral analysis, small group dynamics, ethical and legal issues, psychopathology and the mental health clinician, and practicum and internship experiences where students apply the theory have studied thus developing their application skills in human service work settings. Managing nonprofit organizations, counseling substance abusers and victims or perpetrators of domestic violence; working with high-risk youth, the chronically mentally ill, the developmentally delayed, or geriatric populations are only a few of the available vocations for human service professionals. The following list is a representative sample of job titles for individuals with a Human Services major. The list represents some, but certainly not all, careers which Human Services majors may consider. *For information about these and other careers, please go to www.onetonline.org/.*
