Job Titles for Political Science Majors

Political Science is the study of government, public policy and the political behavior of both individuals and groups at all levels of community life. Government might include nation states, international organizations or sub-units of government such as cities, counties, states or provinces. Graduates qualify for a variety of careers in both the public and private sectors including careers in state, local and federal governments, teaching, public relations, lobbying with interest groups, campaign work, journalism, policy research, marketing and personnel work. *For information about these and other careers, please go to*

www.onetonline.org/.
